3 Bedrooms | 3 Bathrooms | 2,507 Sqft

This home has received a fresh coat of paint throughout. The living room and kitchen is a very open design floor plan. Cozy gas f/p to warm up after a hinterland walk in the snow. The large family room off from the kitchen is a great place for the kids to play and spend time close you the parents or for a hobby/crafter. There are 3 bedrooms on the main floor. Below you have a lovely family room with all the makings of a fireplace, its all there with a nice brick surround, just needs the final work to be done. There is a 4th bedroom on this floor level as well as a large laundry/ furnace room. If you want a workshop there is a large workshop and 220 power if needed for your tools. You are located close to shopping, hospital, entertainment, doctors office and restaurants & easy hwy access.
