ALMOST 1500 SQFT OF AMAZINGNESS! ~ Located in Windermere, one of Edmonton's most sought after and prestigious neighborhoods sits this absolutely gorgeous home. From gorgeous architecture to generous rooms and designer finishes, to a large deck and lush back yard...this home is both a gem and an incredible value. Even better is it's like new and move in ready. The pride of ownership here is evident and you feel it the moment you pull up to the home. There's a large entry and a rare mud room off the garage that leads to a generous and open kitchen overlooking a bright and fresh living space. Upstairs is an equally generous master with a massive and bright walk in closet, a beautiful ensuite, and there's even a large laundry room just off the master. And this home is perfectly located, literally in walking distance to two schools, shopping, restaurants and all the services imaginable. And did I mention the golf course and river valley just two minutes down the road! You owe it to yourself to check this out! (id:27)
